Mr Paul McMurrick
Suite 20
Cabrini Health

Dear Paul

01-29-01-08

Bio21: MMIM Project -- Australian Cancer Grid

Thank you for your application of 10 January 2008 to the Cabrini Human Research Ethics Committee Meeting of 29 January 2008. This study is approved subject to satisfactory governance provisions being presented to me. Approval covers protocol version 1 of 10 January 2008; and the patient information sheet version 1, adult of 2 January 2007.

If the study does not commence before the anniversary of approval, approval will lapse. Approval is ongoing for the life of the project, subject to satisfactory compliance and reporting.

In accordance with the NHMRC's *National Statement on Ethical Conduct in Human Research* of March 2007, section 5.5 on monitoring, you are obliged to:

- provide the CHREC with annual reports on the anniversary of this approval;
- provide the CHREC with a final report on study completion,
- be available for audits/site visits/interviews as requested.

In addition, you are obliged to inform the CHREC of:

- any change to the protocol, patient information or consent form;
- any adverse events that occur during the process of this trial;
- any changes to the research team;
- study completion;
- any change in the financial arrangements regarding the study.

This project was approved under our expedited approval process for projects assessed as being of low or negligible risk.

We wish you well with your project.

Yours sincerely

Anne Spence
